

## Step by Step Series -

### Setup IAdea Android-based players for SignChannel

These instructions only apply to the following models:

XMP-2200/2300/2400

XMP-6200 / MBR-1100

XDS-1060/1062/1068

1) Download the SignChannel add-on package from here:

[https://s3.amazonaws.com/download.us.iadea.com/support/add\\_on/RK3188-Addon-SignChannelmrss\\_20161213.pkg](https://s3.amazonaws.com/download.us.iadea.com/support/add_on/RK3188-Addon-SignChannelmrss_20161213.pkg)

2) Copy “**RK3188-Addon-SignChannelmrss\_20161213.pkg**” onto a blank USB stick formatted in FAT32.

3) Insert USB stick into player. From Basic Settings, go to Advanced > System > Firmware. Click “OK” to start firmware update. Player will update and reboot back to Basic Settings. Unplug USB stick.
