Reset

System setup

1 INSTALL a HDMI cable to your monitor
  → When using *HDMI*, audio and video are sent over a single HDMI cable

2 INSTALL the AC power adapter
  → Immediately, the *Status LED* on the main unit lights up

3 SET your display to the HDMI input
  → You should see the player boot up screen
  as shown in right

4 WAIT while player boots up
  → once you see "Basic settings" on screen,
  the unit is ready for content update or menu
  configuration

5 PLUG IN a USB mouse to the unit's USB port

6 Enter the corresponding configuration option by moving the mouse
  cursor over the configuration and click on the option to enter

  → (Wireless model only) Using the USB mouse, click on "Wireless LAN"
  to enter Wireless configuration and provide security information to
  connect to your wireless access point

IAD_DGS_X73_20EP

→ *find and set the correct time/date AND time zone*.

IMPORTANT: time zone must be set correctly in the menu or via management software for scheduled playback

→ (OPTIONAL) *Set a Password* in the menus to prevent unauthorized changes.

 IMPORTANT: Password will be asked while enter the setup menu during playback

7 **Click** *Set content* button to configure your signage appliance to the content service if needed

→ For advanced player configuration, such as static IP, display resolution, and firmware update, visit www.digisignage.com for more information

Content Management

Please consult the software documentation for information specific to your management solution.

Troubleshooting

How do I interrupt playback and enter setup menu?
You can move your mouse cursor to the corner of the screen, press and hold the left key for 10 seconds to exit playback and enter setup menu.

Some video play jumpy or incorrectly, How to get best video playback performance?
We provide video convert tool with pre-configured profile for user to encode video to get best video playback performance.
Visit www.digisignage.com to download video convert tool.

Reset player to factory defaults (AC adapter is required)

If modifying settings cause unintended results or if you have forgotten your password, please reset the player. Local contents will also be removed.

1. Press and hold the reset button with a pen.
2. **Use AC adapter**, re-connect the power cord while holding reset button.
3. Wait until the orange status LED flashes, release reset button and wait for system to initialize to factory default state.
