

## **QSR / TECH DOC**

Date

4/24/2024

Version 1.0.0

# Installing Security Certificates

#### America

20 Fairbanks, Ste, 170 Irvine, CA 92618 California, U.S.A

#### Taiwan

114, 3F, No. 21 Ln. 168, Xingshan Rd. Neihu Dist., Taipei, Taiwan

This printed quick guide provides a quick walkthrough of the set-up process.

## **Technical Spec**

### You will need:

- Android 12 Media Player with Latest Firmware (4.X.X or above)
- Security Certificate Files

# Security Certificate Installation SOP

- 1. Copy and Paste the CA certificate (\*.pem) and User certificate (\*.pfx) to USB drive. Then plug the USB drive into the device.
- 2. From Basic Settings Page, click on Advanced  $\rightarrow$  tap 3x on the bottom right corner to access the Android home page. Then open the **Settings** app.

3. Click on Security → Encryption & credentials → Install a certificate → Wi-Fi certificate → Install anyway

### 4. Select the USB Drive and the CA certificate.

5. Name the certificates and click [OK]

Name this certificate	
Certificate name	
IAdea	
	CANCEL OK

6. You can also verify by selecting **User credentials** to view all installed certificates.
