

# How to install Android Apps

**For Android 7.1 OS**

**October 2019**

# Applicable Products

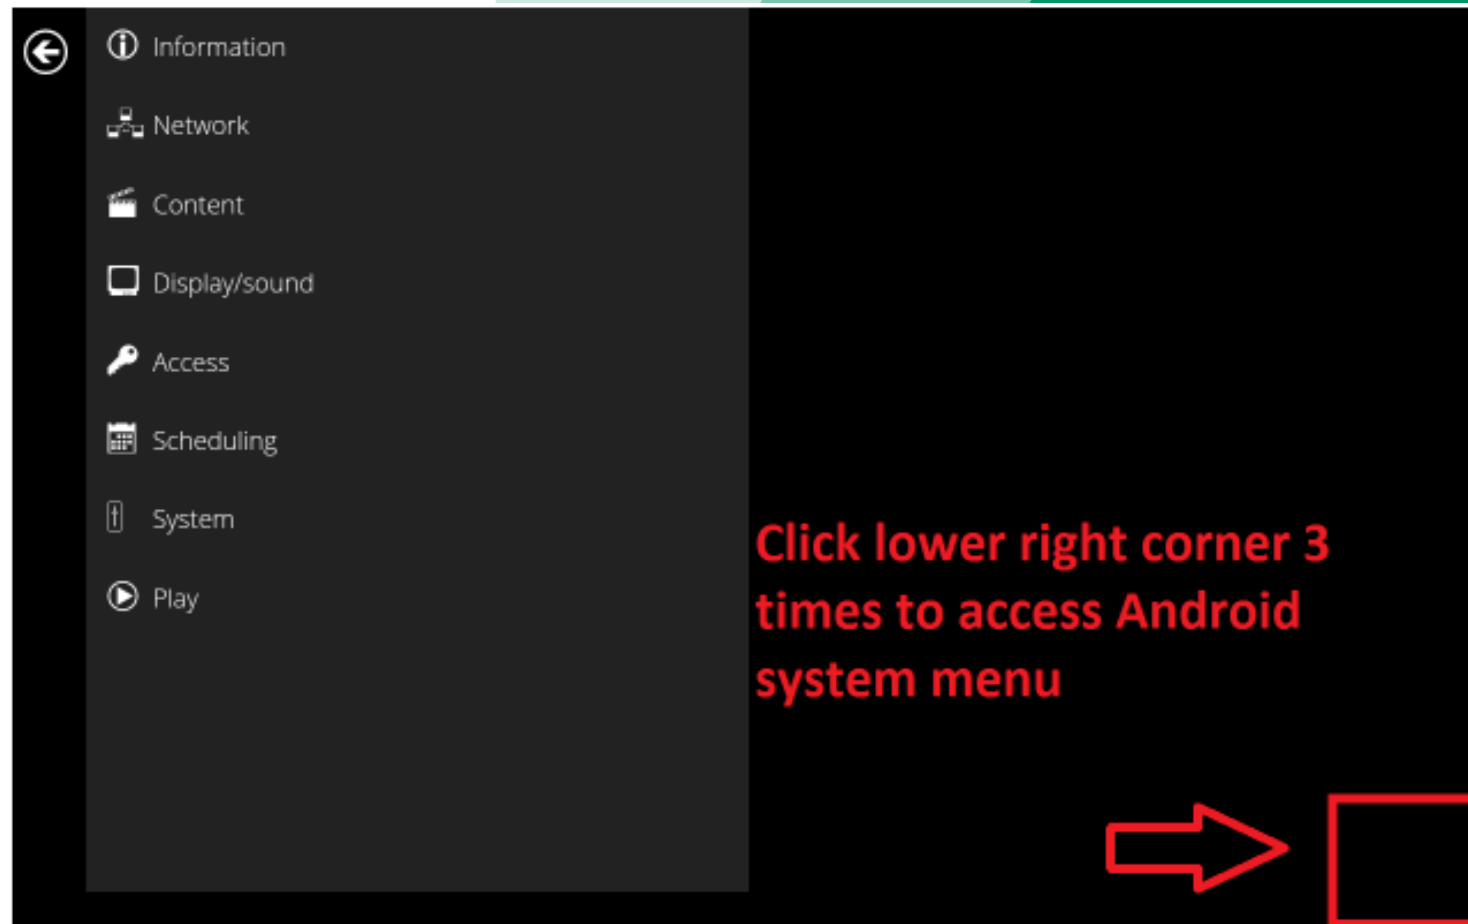

- MBR-1100-A7
- XMP-6250, XMP-7300-A7
- XDS-1078, XDS-2288, XDS-2285, XDS-1088, XDS-1588

# Preparation

- Prepare an USB drive or SD Card.
- Copy the app onto an USB thumb drive or SD Card and insert it into IAdea device.

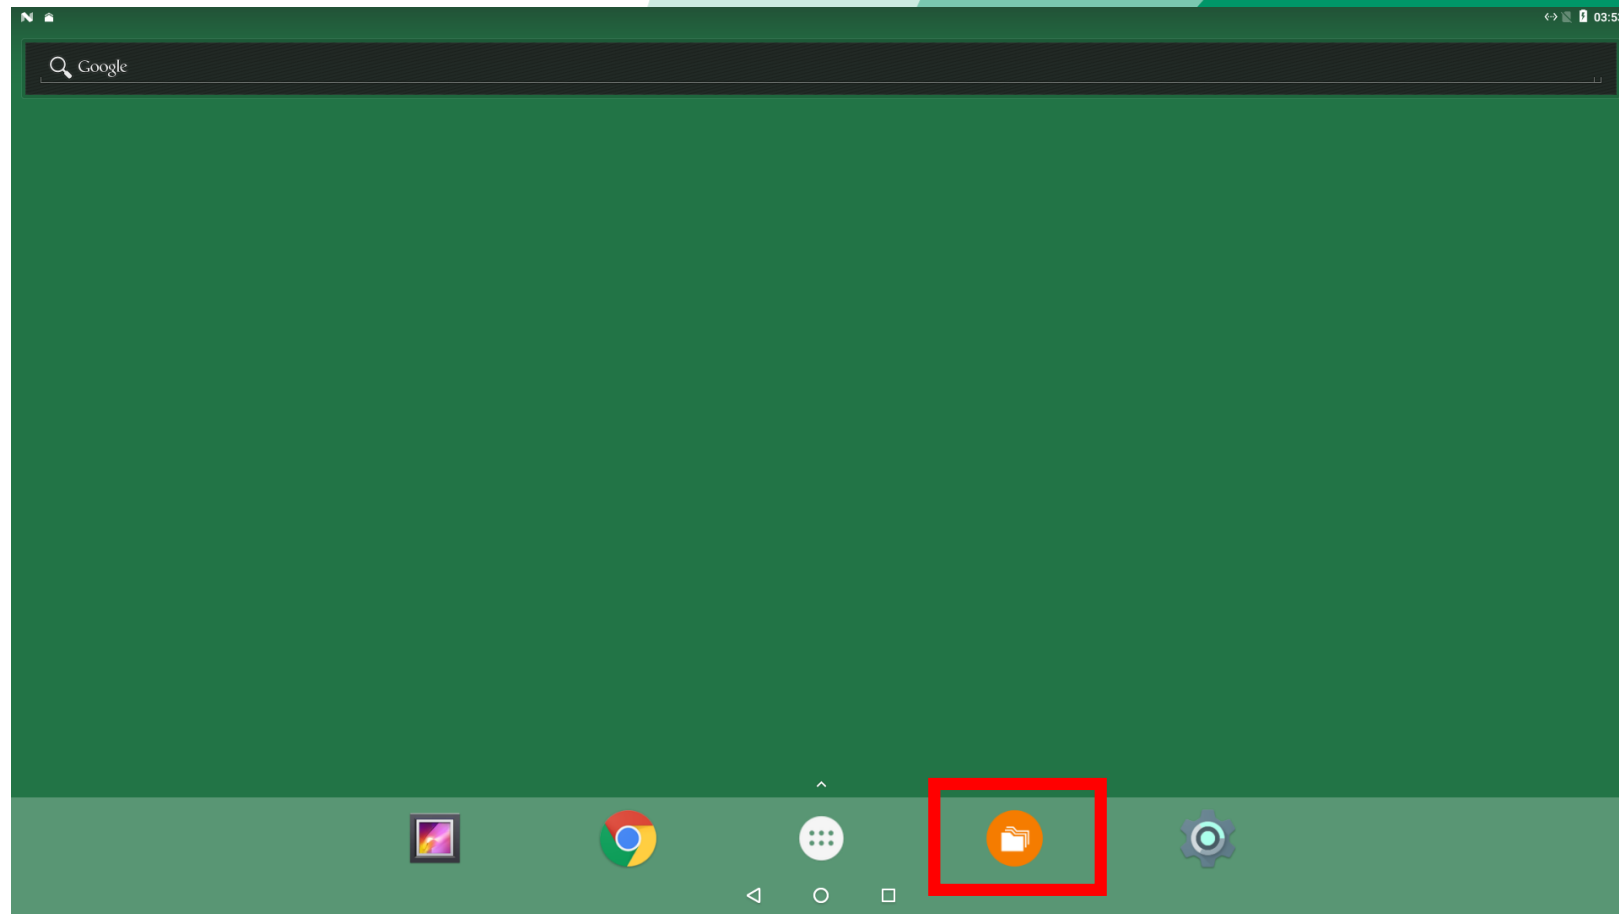

# Enter Android System

- At Basic Settings, click "Advanced" to enter screen below, then click on the "lower right corner" 3 times using the mouse.

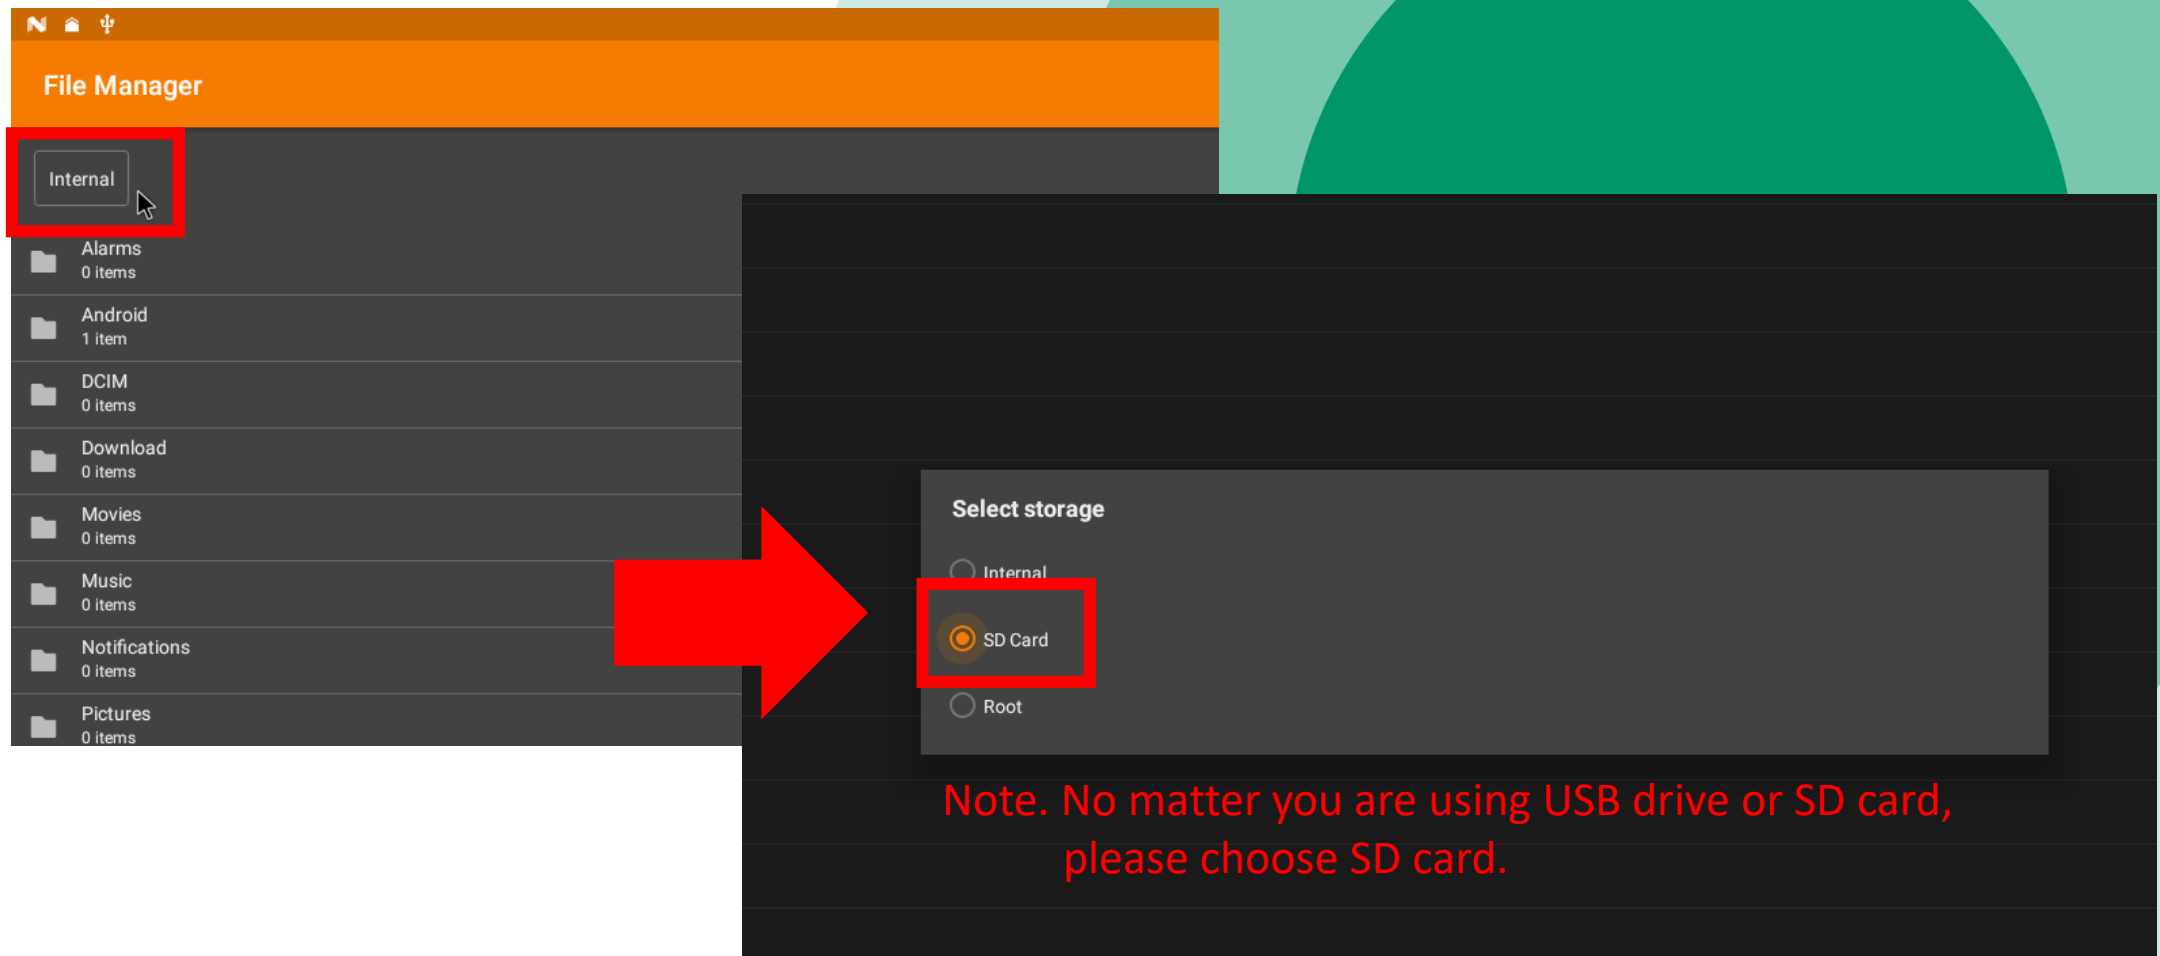

# Enter File Manager

- Click on a tiny icon on the Android desktop.

# Enter External Device Folder

- Click icon to change the folder from 'Internal' to 'SD card'.

# Install Your .apk

- Click the .apk file you are going to install and click 'Install'.
